What ?

A Water based professional grade industrial cleaner for all round and multi-purpose cleaning of factories, plants, and industrial installations that requires a thorough deep cleaning. Concentrated

When and where?

This water based deep cleaner is suitable to clean industrial buildings, structure, decks and floors, work shops, ware houses etc. Any area that requires deep cleaning. Removes dirt, grime, mold, soot, traffic film, oils etc

How?

Mix 1 part T25 with 20 parts water for general cleaning or higher concentration depending on cleaning requirement. Clean by mopping, spraying, brushing etc. After cleaning rinse off with potable water.

Why?

- Water based and safe
- Minimum environmental impact
- Effective and economical
- Pleasant scent
- Easy to use
- Concentrated, Dilute on site
- Good for you, Good for the environment
